CONSERVATION COMPLIANCE PLAN FOR TRACT t1925
Flander Brothers

CONSERVATION SYSTEM SUMMARY FOR FIELD 3.1

A CROP ROTATION of corn soybeans oat meadow meadow will be used on this field.

All planting and tillage operations will be performed ACROSS THE SLOPE (with a predominant row grade of 6%).

The following CONSERVATION TILLAGE system will be used:
Meadow is spring tilled leaving at least 20% of the ground covered by residue after planting corn.
Corn stalks are tilled leaving at least 30% of the ground covered by residue after planting soybeans.
Soybean stubble is spring tilled leaving at least 20% of the ground covered by residue after planting oats.

GRASSED WATERWAYS are required in locations shown on the conservation plan map.

APPLICATION SCHEDULE

Install Date	Field No.	Practice (SCS practice number)	Amount	Applied Date
Apr 87	3.1 *	Grassed Waterway (412)	1.7 Ac.	Apr 87
Apr 93	3.1 *	Crop Rotation (328)	41.1 Ac.	
Apr 93	3.1 *	Conservation Tillage (329)	41.1 Ac.	
Apr 93	3.1 *	Cross-slope Farming (330)	41.1 Ac.	

*In order to be considered actively applying your conservation plan, practices need to be installed according to SCS standards and specifications by the planned date AND BE MAINTAINED THEREAFTER. It would be helpful in certifying your active application if you let the SCS office know when practices have been applied.

Flander Brothers

*In order to be considered actively applying your conservation plan, practices need to be installed according to SCS standards and specifications by the planned date AND BE MAINTAINED THEREAFTER. It would be helpful in certifying your active application if you let the SCS office know when practices have been applied.

For detailed information on crop rotations, conservation tillage, cross-slope farming and grassed waterways see the attached job sheets.

More conserving crops may be used in the crop rotation, refer to the crop rotation job sheet for additional information.

Remarks:

Field #3.1: A CROP ROTATION of SOYBEAN CORN OAT MEADOW MEADOW can be used on this field. All planting and tillage operations will be performed ACROSS THE SLOPE (with a predominant row grade of 6%). The following CONSERVATION TILLAGE system will be used: Meadow is SPRING TILLED leaving 30% of the ground covered by residue after planting soybeans. Soybean stubble is SPRING TILLED leaving at least 20% of the ground covered by residue after planting corn. Corn stalks are SPRING TILLED leaving at least 30% of the ground covered by residue after planting oats. THIS SYSTEM KEEPS THE SOIL LOSS BELOW LIMITS.

CONSERVATION COMPLIANCE PLAN FOR TRACT t1925
 Likens, Paul V

CONSERVATION SYSTEM SUMMARY FOR FIELD 3.2

This field(s) is to be used as pasture or hayland. Rotational grazing is recommended on pastures to allow a recovery period for re-growth of the forage. To improve forage quality and quantity, fertilize and lime according to soil test recommendations. Warm-season grasses such as switchgrass or big bluestem are a good option to improve forage production during the hot summer months when cool season grasses such as bluegrass are dormant. A detailed conservation plan may be needed if this field(s) is used for agricultural commodity production. Check with your local Soil and Water Conservation District for more information.

APPLICATION SCHEDULE

Install Date	Field No.	Practice (SCS practice number)	Amount	Applied Date
Apr 89	3.2 *	Pasture and Hayland Management (510) 35401 172	10.4 Ac.	OK Apr 89

*In order to be considered actively applying your conservation plan, practices need to be installed according to SCS standards and specifications by the planned date AND BE MAINTAINED THEREAFTER. It would be helpful in certifying your active application if you let the SCS office know when practices have been applied.

CERTIFICATION OF COMPLIANCE WITH THE FOOD SECURITY ACT, 1985

I (We) concur in the conservation practices and installation schedules indicated in this conservation plan for all fields labeled HEL*. I (We) understand that, when this conservation plan for HEL fields is applied to the land and maintained on a continuing basis, the conservation system will meet all of the Food Security Act of 1985 requirements for conservation compliance. Furthermore, I (we) understand that if any fields other than those HEL fields specified in this plan will be used for the production of agricultural commodities, I (we) will contact ASCS and SCS for an HEL determination.

Cooperator (Producer) *Flander Brothers by Dennis Flander* Date *1/8/97*

The above Conservation Plan meets the requirements of the Field Office Technical Guide.

District Conservationist *Kevin Sturms* Date *2-11-97*

Approved by

Kevin Janni
Conservation District *Conservationist* Date *2/11/97*

HEL Fields marked as HEL are highly erodible fields.

HEL* Reapplication of this conservation practice on this highly erodible field is required for compliance with the Food Security Act of 1985. See the Conservation Plan for details about first time application.

CONSERVATION COMPLIANCE PLAN
CERTIFICATION BY PARTICIPANTS

I have chosen to use Alternative Conservation Systems on my farm on the following fields: 1 3.1

I recognize that use of Alternative Conservation Systems may not reduce soil erosion to levels consistent with Iowa's Soil Erosion Control Law which has a goal of reducing soil losses to acceptable levels by the year 2000. If I wish to reduce soil losses to this level, I understand that technical assistance may be obtained at the local Soil Conservation Service office.

Practices denoted by an asterisk (*) must be installed and/or maintained as scheduled to remain eligible for U.S.D.A. program benefits.

RE: Cost-Share Assistance Application #25227
Terraces, Publicly Owned Lakes

The Soil and Water Conservation District Commissioners approved your application for cost-share assistance on April 12, 2011. The maximum cost-share amount of \$ 1,711.87 has been obligated for your practice; however, your cost-share payment will be based on estimated or eligible costs, whichever is less.

Please call our office (641) 673-3476 as soon as possible to arrange for a technician to meet with you to complete the design of this practice. Once the design has been finalized, we will send you two copies of the design--one for you and one for your contractor to use in construction. You cannot begin work until you receive a final design from this office. If you or your contractor anticipates any change in design or the estimated cost, you need to contact our office before proceeding with construction. Changes will require a formal amendment and approval by the District Board.

The practice must be started by June 30, 2011 and completed by December 31, 2011, or cost share funds will be canceled. If you will not be able to meet this completion deadline, please notify us prior to that date to discuss the possibility of extending the deadline through a formal amendment. If you decide not to do this practice, please contact us promptly so we can re-allocate the funds to someone else.

After work is completed, you will need to contact this office so that a technician can certify that your practice meets our specifications in order to begin the cost-share payment process. You will need to bring in your bills/receipts to our office for processing. Upon certification, you will be required to maintain this for 20 years.

If you need further assistance or have questions on these procedures, please give us a call.

------(For Office Use Only)-----

FUNDING OBLIGATION:

Funding in the amount of \$ 1,711.87 has been obligated for the practice, and work should be started by June 30, 2011 and completed by December 31, 2011.

**IOWA FINANCIAL INCENTIVE PROGRAM FOR SOIL EROSION CONTROL
MAINTENANCE/PERFORMANCE AGREEMENT**

Form IP-4(Rev 10/06)

Iowa Department of Agriculture & Land Stewardship

FARMS Agreement No #25227

Division of Soil Conservation

MAHASKA SWCD County Soil and Water Conservation District

This AGREEMENT is made and entered into this day of 08/09/11, by and between the MAHASKA SWCD County Soil and Water Conservation District, herein called DISTRICT, and VIRGINIA LIKENS, herein called RECIPIENT.

WITNESSETH:

DISTRICT and RECIPIENT hereby agree that this covenant is executed to satisfy the requirements of Iowa Code Section 161A.7(16) and should be interpreted in a manner that promotes the policies of Chapter 161A of the Iowa Code. Section 161A.7(16) requires this covenant as a condition for receiving DISTRICT financial incentive assistance and provides that the owner, present or future, of the property herein described is personally liable through this AGREEMENT if the soil and water conservation practice herein named is not maintained or is removed, altered or modified while this AGREEMENT is effective.

The RECIPIENT hereby acknowledges the receipt of FARMS Agreement No. #25227 in the amount of \$2,027.26 as reimbursement for partially or completely financing the herein named soil and water conservation practice on Qtr. N1/2 Sec. 4 Township Pleasant Grove Tier T77N Range R14W County Mahaska, in the State of Iowa.

RECIPIENT hereby agrees that no action shall be taken by the RECIPIENT or his/her agents or successors to remove, alter or modify any soil and water conservation practice herein named for 20 years from the date of the AGREEMENT unless prior written authorization is obtained from the District and incorporated into this AGREEMENT.

RECIPIENT hereby agrees that if any unauthorized removal, alteration or modification of the soil and water conservation practices herein named occurs during the term of this AGREEMENT, RECIPIENT will repair or reconstruct the practices to their original as-built design specifications at RECIPIENT'S own expense. In lieu of repairing or reconstructing the practices, DISTRICT, at the sole discretion, may allow RECIPIENT or RECIPIENT'S successors to refund to the Iowa Division of Soil Conservation the entire amount of the financial incentive payment received by RECIPIENT.

DISTRICT and RECIPIENT hereby agree that if RECIPIENT makes a refund of all money received under this AGREEMENT to the DIVISION that the AGREEMENT is cancelled and that no costs of cancellation shall be charged to either party.

RECIPIENT hereby agrees to notify any prospective purchaser of the property herein described of the landowner's obligations created by this AGREEMENT and Section 161A.7(16) of the Iowa Code and Section 27-10.31 of the Iowa Administrative Code before legal or equitable title to any portion of this property is transferred.

COVERAGE OF THIS AGREEMENT:

DISTRICT and RECIPIENT agree that the soil and water conservation practice(s) detailed in the following description and on the attached sketch (hereby made part of this AGREEMENT) were partially or completely installed with DISTRICT funds and is covered by this AGREEMENT.

RECIPIENT hereby agrees the maintenance agreement will begin on 08/09/11.

RE: Cost-Share Assistance Application #25228
Grassed Waterway

The MAHASKA SWCD Commissioners have received your application for cost-share assistance for the practice named above. Your application includes the following:

Practice	Quantity	Estimated Cost	Cost Share Amount
Grassed Waterway	2.2 Acre(s)	\$ 13,719.00	\$ 10,289.25

Your signature is required below in order to bring this request before the District Board for action. With your signature, you (1) certify that you are eligible to participate in the financial incentives program, (2) grant the District and its representatives the right of ingress and egress to your land for purposes related to this application, and (3) agree to comply with the Maintenance/Performance Agreement specified for this practice. Please return this signed document within five days to the District office address listed above.

If you need further assistance or have questions, please call the District office(641) 673-3476.

MAHASKA SWCD**

DATE: April 13, 2011

**RE: Cost-Share Assistance Application #25228
Grassed Waterway, Publicly Owned Lakes**

The Soil and Water Conservation District Commissioners approved your application for cost-share assistance on April 12, 2011. The maximum cost-share amount of \$ 10,289.25 has been obligated for your practice; however, your cost-share payment will be based on estimated or eligible costs, whichever is less.

Please call our office (641) 673-3476 as soon as possible to arrange for a technician to meet with you to complete the design of this practice. Once the design has been finalized, we will send you two copies of the design--one for you and one for your contractor to use in construction. You cannot begin work until you receive a final design from this office. If you or your contractor anticipates any change in design or the estimated cost, you need to contact our office before proceeding with construction. Changes will require a formal amendment and approval by the District Board.

The practice must be started by June 30, 2011 and completed by December 31, 2011, or cost share funds will be canceled. If you will not be able to meet this completion deadline, please notify us prior to that date to discuss the possibility of extending the deadline through a formal amendment. If you decide not to do this practice, please contact us promptly so we can re-allocate the funds to someone else.

After work is completed, you will need to contact this office so that a technician can certify that your practice meets our specifications in order to begin the cost-share payment process. You will need to bring in your bills/receipts to our office for processing. Upon certification, you will be required to maintain this for 10 years.

If you need further assistance or have questions on these procedures, please give us a call.

------(For Office Use Only)-----

FUNDING OBLIGATION:

Funding in the amount of \$ 10,289.25 has been obligated for the practice, and work should be started by June 30, 2011 and completed by December 31, 2011.

FARMS Agreement No #25228

MAHASKA SWCD County Soil and Water Conservation District

This AGREEMENT is made and entered into this day of 08/09/11, by and between the MAHASKA SWCD County Soil and Water Conservation District, herein called DISTRICT, and VIRGINIA LIKENS, herein called RECIPIENT.

WITNESSETH:

DISTRICT and RECIPIENT hereby agree that this covenant is executed to satisfy the requirements of Iowa Code Section 161A.7(16) and should be interpreted in a manner that promotes the policies of Chapter 161A of the Iowa Code. Section 161A.7(16) requires this covenant as a condition for receiving DISTRICT financial incentive assistance and provides that the owner, present, or future, of the property herein described is personally liable through this AGREEMENT if the soil and water conservation practice herein named is not maintained or is removed, altered or modified while this AGREEMENT is effective.

The RECIPIENT hereby acknowledges the receipt of FARMS Agreement No. #25228 in the amount of \$7,435.45 as reimbursement for partially or completely financing the herein named soil and water conservation practice on Qtr. N1/2 Sec. 4 Township Pleasant Grove Tier T77N Range R14W County Mahaska, in the State of Iowa.

RECIPIENT hereby agrees that no action shall be taken by the RECIPIENT or his/her agents or successors to remove, alter or modify any soil and water conservation practice herein named for 10 years from the date of the AGREEMENT unless prior written authorization is obtained from the District and incorporated into this AGREEMENT.

RECIPIENT hereby agrees that if any unauthorized removal, alteration or modification of the soil and water conservation practices herein named occurs during the term of this AGREEMENT, RECIPIENT will repair or reconstruct the practices to their original as-built design specifications at RECIPIENT'S own expense. In lieu of repairing or reconstructing the practices, DISTRICT, at the sole discretion, may allow RECIPIENT or RECIPIENT'S successors to refund to the Iowa Division of Soil Conservation the entire amount of the financial incentive payment received by RECIPIENT.

DISTRICT and RECIPIENT hereby agree that if RECIPIENT makes a refund of all money received under this AGREEMENT to the DIVISION that the AGREEMENT is cancelled and that no costs of cancellation shall be charged to either party.

RECIPIENT hereby agrees to notify any prospective purchaser of the property herein described of the landowner's obligations created by this AGREEMENT and Section 161A.7(16) of the Iowa Code and Section 27-10.31 of the Iowa Administrative Code before legal or equitable title to any portion of this property is transferred.

COVERAGE OF THIS AGREEMENT:

DISTRICT and RECIPIENT agree that the soil and water conservation practice(s) detailed in the following description and on the attached sketch (hereby made part of this AGREEMENT) were partially or completely installed with DISTRICT funds and is covered by this AGREEMENT.

RECIPIENT hereby agrees the maintenance agreement will begin on 08/09/11.
